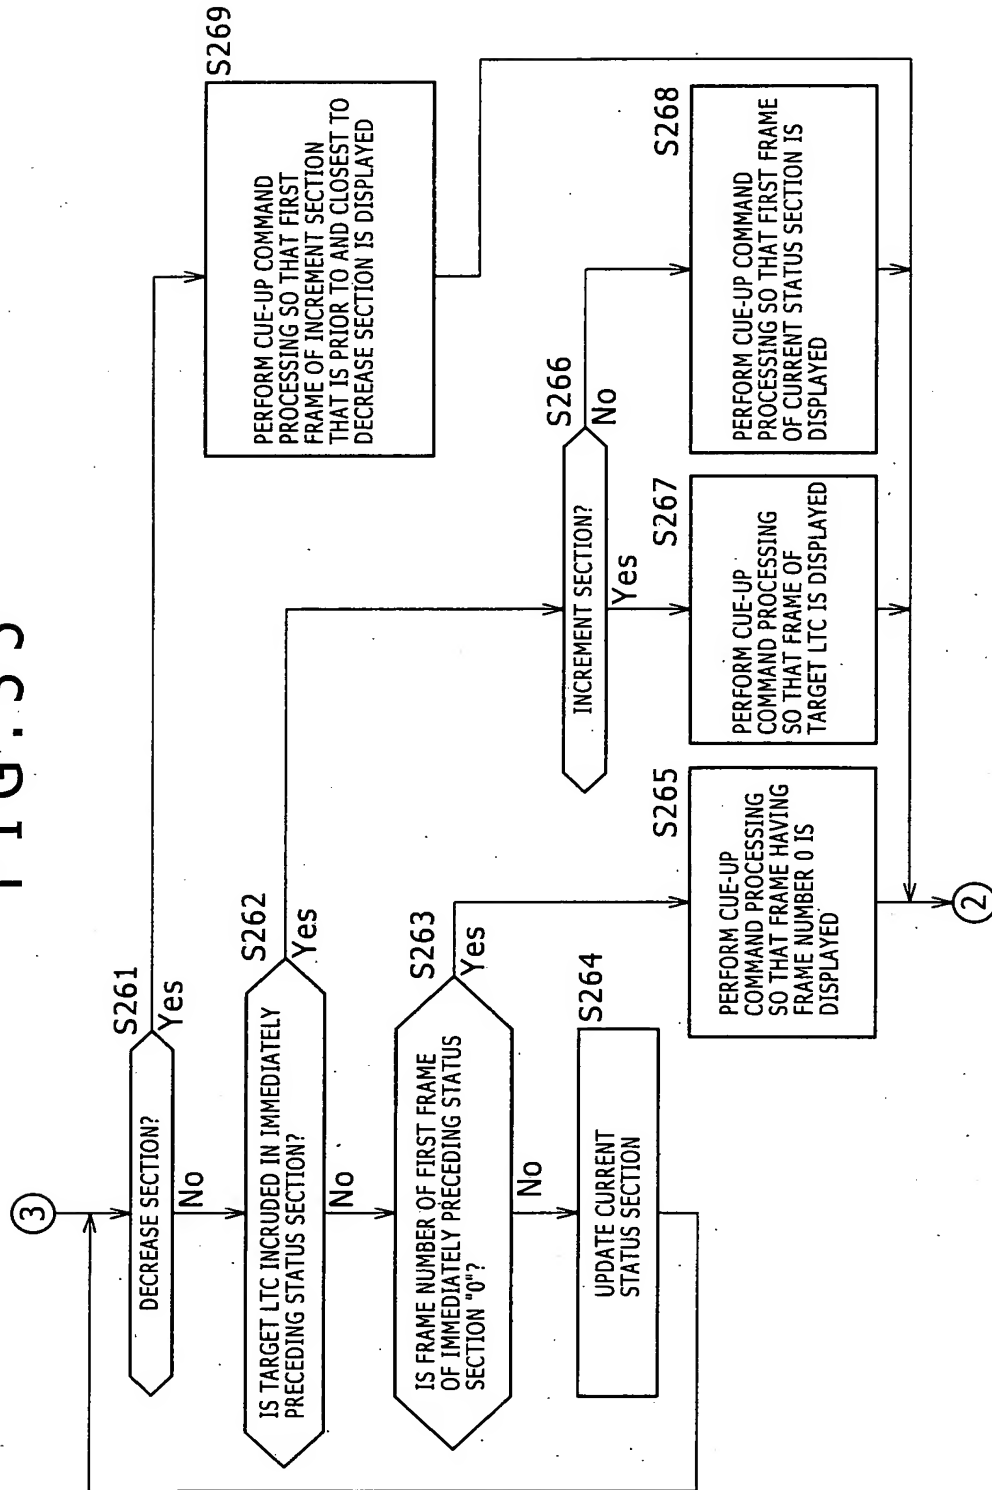

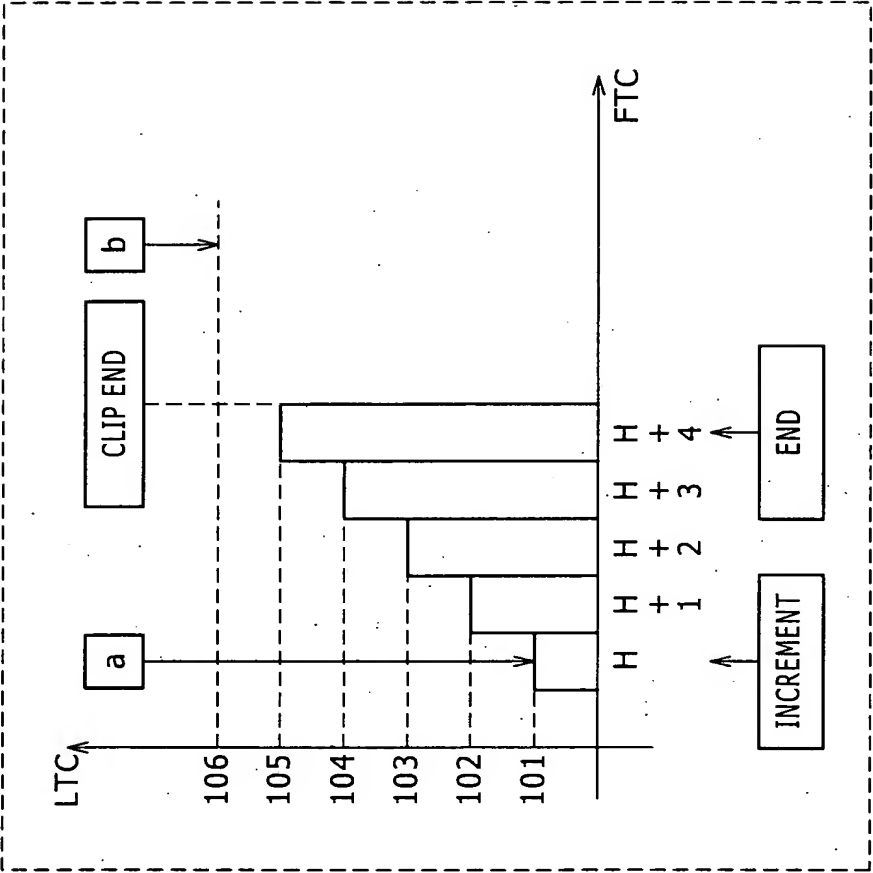

Figure 1 is a bar chart showing LTC (Long-Term Cost) for various scenarios (a-k) under different conditions (H, J, K, L). The y-axis represents LTC from 101 to 107. The x-axis shows scenarios a through k. Arrows indicate the direction of change (Increase, Still, Decrease) for each scenario. The chart is divided into three sections: INCREMENT (H), INCREASE (J), and STILL (K), and a final section for DECREASE (L).

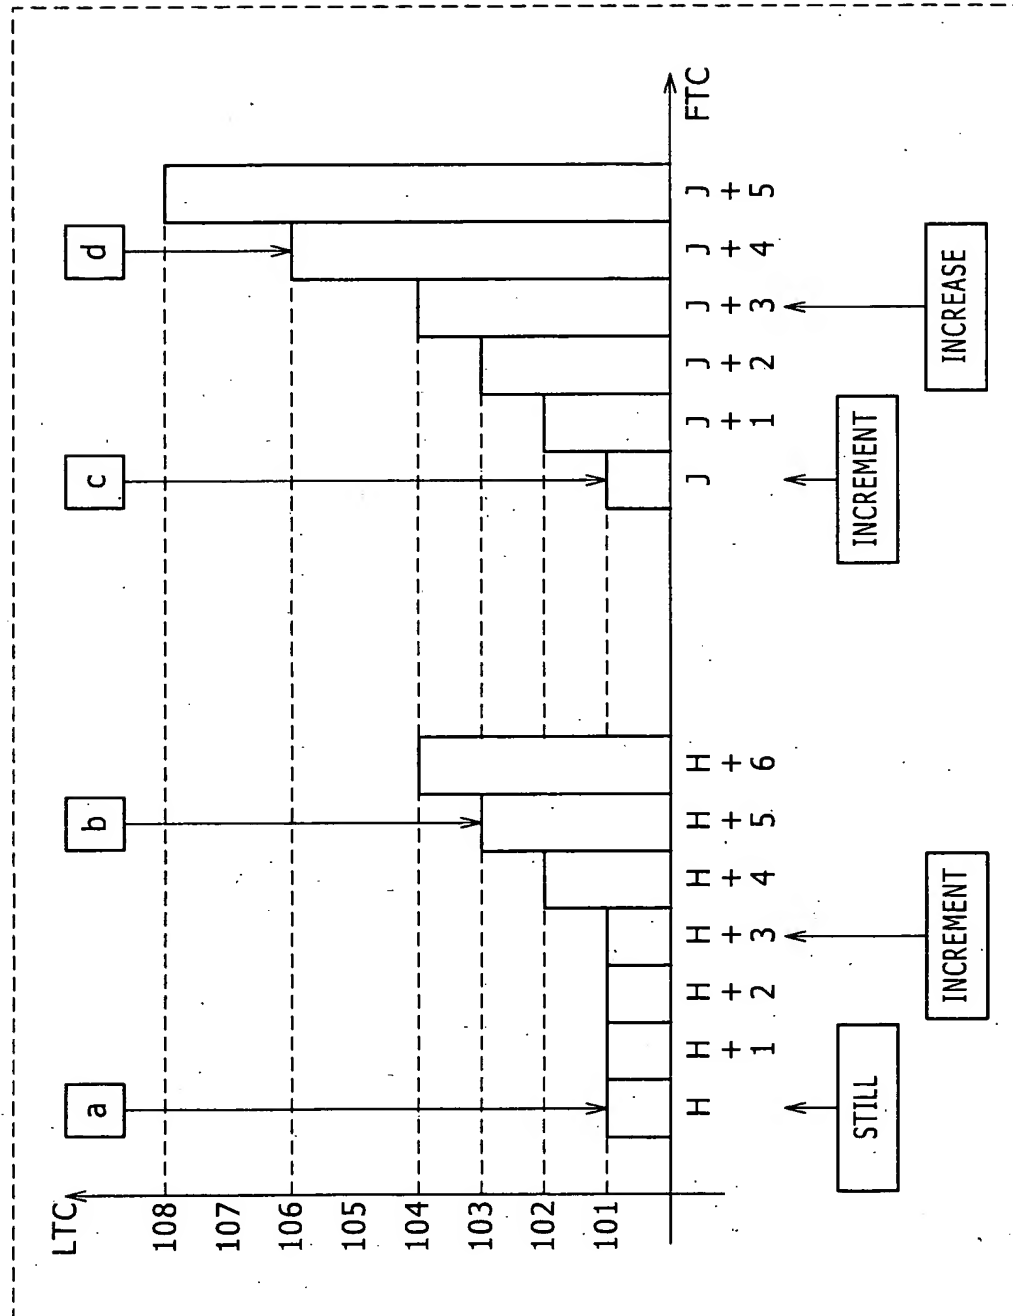

Scenario	Condition	LTC	Change
a	H	101.5	INCREMENT
b	H	103.5	INCREMENT
c	J	101.5	INCREASE
d	J	103.5	INCREASE
e	J	106.5	INCREASE
f	K	106.5	STILL
g	K	106.5	STILL
h	L	106.5	DECREASE
i	L	105.5	DECREASE
j	L	103.5	DECREASE
k	L	101.5	DECREASE
